

CPR Certification

1.What level of CPR certification should I have?

As a health care provider you should be taking/renewing CPR LEVEL C with AED

2.How often do I have to renew my CPR certification?

[Section 73\(3\)](#) of the College Bylaws states that “*Full registrants must complete a CPR certification course at least once every three years and must hold a certification that is no more than three years old when renewing their registration under section 63*”.

3.Do I need to report my CPR certification to the College?

Please self-report/self-record your CPR certification on your College profile, under ‘Cardiopulmonary Resuscitation Certification’. This can be done by logging on to your College profile under [Registrant Login](#), selecting ‘View My Profile’, and scrolling to the bottom of the page. Click ‘edit’ and proceed to input your CPR certification and expiry dates.
