

COTBC Re-Entry Program

Competence Confirmation Practicum Proposal

RC/22.06.04 CCP Proposal April 2023

Applicant (Provisional Registrant):

Supervising OT(s):

Facility or Site:

Proposed Start and End Date:

Hours of Practice per week/Schedule:

Practicum Content

A description of Practicum content should include client population(s), setting, hours of practice, scope of services offered including a summary of occupational therapy skills and competencies expected to be observed in the setting. Use additional space if required.

Practicum Progression

A description of Practicum progression should include a chronological timeline of what the Competence Confirmation Practicum will look like. It should demonstrate that the applicant is gradually working to more independent practice with a full caseload. For clarity, it is suggested that %of caseload or workload be indicated. Use additional space if required. (See *Example of Competence Confirmation Practicum Proposal*).

Supervision Plan

A description of the supervision plan should include:

- how the supervisor will assess the progress of the applicant throughout the Practicum;
- frequency and duration of contact between the supervisor and applicant;
- accessibility of supervisor to applicant outside of planned contacts.

The supervision plan should clearly demonstrate that there is an opportunity for applicant to assume increased responsibility for their professional practice throughout the Practicum, so that the applicant demonstrates competence to practice independently. Use additional space if required.
