All documents referenced in this form can be found in the [Application Documents](#) section on the website.

If you have completed a Canadian Psychological Association (CPA) or American Psychological Association (APA) accredited doctoral degree in psychology completed in residence and a CPA or APA accredited 12-month pre-doctoral internship, or the equivalent, you must complete the written application process outlined here before you can be granted permission to take the oral and written exams and can establish eligibility for registration and licensure. If your program of study or internship was not CPA or APA accredited and completed in residence, your application will require more information and may take more time to complete.

You can find more information about doctoral program and internship requirements in the College Bylaws **Schedule 7, Table 1** and detailed coursework information below. You can find more information about **CPA and APA accreditation** in the documents section.

Third Party Documentation

Required transcripts, verifications, certifications, police checks and other third-party documentation must be sent directly to the College by the third party. The College will accept required documentation in an electronic format directly from third parties via email to registration@chcpbc.org

Please note: The FBI and some police detachments will mail paper record checks directly to the College when the applicant requests that the check is sent to them “c/o CHCPBC” and uses the College mailing address. In circumstances where the police will only send paper copies to the applicant, applicants should forward the unopened envelope to the College when they receive it.

Please note that the following items are required in order to process your application for registration:

The steps outlined below will guide your application if you are a graduate of a CPA/APA accredited program or a graduate of a non- accredited program. Please read and follow the appropriate section.

GRADUATES OF A CPA/APA ACCREDITED PROGRAM

1. Application form

Complete the Registered Psychologist Registration Application Form found on the [Applicant Portal](#)

2. Coursework requirements

Applicants who have graduated from CPA- or APA-accredited programs, completed in residence, will be deemed to have met coursework requirements. However, CPA- or APA-accredited program graduates are still required to document coursework on the application form.

3. Resident Study and Training description

All applicants are required to submit a description of how their program meets each of the criteria outlined in **Schedule 7, Table 1** of the College bylaws for resident study and training and attach this description to the application form.

4. Pre-doctoral internship

If your internship was not CPA/APA accredited, please refer to the Pre- Doctoral Internship Criteria set out in **Part I, section F of Schedule 7, Table 1** of the College bylaws. These are the criteria by which the Registration Committee evaluates all non-accredited internships. Please describe in a separate written submission how your internship meets each of the criteria listed in Schedule 7, Table 1.

5. Declaration of Area of Practice

For the purposes of registration **one** Area of Practice must be selected by applicants. A declaration of competence in an area of practice is a declaration by the applicant that he or she has the appropriate training, education, and experience (i.e., the tripartite requirement) in that area of psychology to be able to offer the wide range of activities and services within that area. Definitions of the recognized Areas of Practice are found in **Schedule 7, Table 2** of the College bylaws.

The Registration Committee expects that a declaration in an area of practice will be consistent with the graduate program completed and subsequent internship. If the declared area of practice is different from either what is documented on the transcript or the attestation provided by the program training director, the applicant may be required to document competence in that area to the Registration Committee. Consistent with other psychology regulatory bodies in North America, the College does not offer specialty licenses to Registered Psychologists in any practice area.

6. References

Applicants should identify three referees who are registered/licensed psychologists in good standing for the past two years, and who have supervised the applicant's work, one of whom is the internship director. All three referees should have supervised the applicant's current clinical work, i.e., work within the five-year period immediately preceding the application.

N.B.: For reference purposes, a retired referee will be considered registered or licensed for a given application if he or she retired within five years of the applicant's date of application for registration, and was registered or licensed for at least two years, in good standing, immediately prior to the date of his or her retirement.

7. Criminal Record Check

All applicants must undergo an [online criminal record review](#) through the provincial government's Criminal Record Review Program (CRRP) using the access code GDM74JX5TR.
