

## **PRACTICAL LEARNING LOG**

Licensees may use this form to log practical learning objectives.

The minimum observation and practical training requirements are outlined in each objective and should be logged accordingly. Unless otherwise specified in the certification program, utilizing the same patient for more than one learning activity within the same objective is not permitted. If a patient has the same initials, please use an additional letter or number to differentiate them.

**Licensees may print additional practical learning log pages as needed.**
